## Limitless Seas... the Ultimate Luxury Performance Sport Yacht Arrive in Style and Leave an Impression

Limitless Seas is proud to introduce the Limitless line of luxury sport yachts! Our Limitless lineup includes the breathtaking 45-foot XLV and the 54-foot LIV models – with a 65-foot model arriving in late 2023!

This latest line of yachts exudes technical innovation, luxury and comfort. Bring the beach club onboard with industry-leading outsized side terraces that fold down and open independently. The first ever automated rear boarding steps let you enter the water gracefully when down, or just put your feet in the water when raised. The rear power seating offers a choice of layouts at the touch of a button – a sunbed, bar or dining room seating. In addition, the bow and aft tables retract into the floor for maximum flexibility. The bow area offers a secondary lounging area featuring a sunbed, bow and aft-facing seating and a retractable table. There is no shortage of entertaining space on this impressive line of luxury sport yachts.

If you like to arrive in style and leave an impression this is your boat. Extremely well equipped, these boats include everything a modern boat has to offer. The extra-large retractable sunroof gives the captain flexibility to enjoy the sun or stars when the time is right. Other features include joystick piloting, bow thruster, sea keeper stabilizer, barbecue grill, TVs, telescoping sunscreen, Fusion brand stereo system and just about everything else you would expect in a boat of this class. A well-executed bonus feature is the retractable telescoping anchor behind a hidden compartment. Light up the night with the best LED package in the industry.

Below deck you are greeted with the highest quality interior with a modern look. This is not simply a fishing boat converted into a day boat! The quality of the materials and attention to detail truly stand apart in this class and size of boat.

A variety of engine options are available; however, most people choose twin 600 HP Mercurys on the XLV and triple Mercury 600s on the LIV – with both delivering excellent performance!

ARRIVE IN STYLE

Limitless Seas motto is “Arrive in Style and Leave an Impression” and these boats clearly deliver on that promise!
